CASCADE NATURAL GAS CORPORATION

RULES AND REGULATIONS

GENERAL

The Company shall furnish natural gas service under the following Rules and Regulations, and all subsequent revisions thereof as approved from time to time by the Oregon Public Utility Commission. These Rules and Regulations shall apply to service to customers of all classifications on the Company lines.

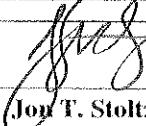

No officer, employee, agent or representative of the Company has the right to waive, alter or amend in any manner these Rules and Regulations, or any part thereof. Copies of the Rules and Regulations shall be on file in the local offices of the Company and open to the inspection of the public.

The natural gas supplied by this Company may vary in different localities. However, a cubic foot under standard conditions will average between 1020 and 1075 British Thermal Units and will contain not less than 985 British Thermal Units or not more than 1100 at points when and where available.
