

WARM UP TO EFFICIENCY WITH A GAS FIREPLACE

Cozy up to reduced energy costs this winter when you upgrade to a direct-vented gas fireplace. You'll enjoy improved indoor air quality and instant-on performance without the mess and hassle of a wood-burning fire. As a customer of Cascade Natural Gas, you can get up to \$250 cash back from Energy Trust of Oregon on qualifying models.*

**Incentives are subject to qualification, funding availability and may change.*

FIND THE PERFECT MATCH FOR YOUR HOME

Gas fireplaces radiate direct heat into a space, giving you the ambience and warmth of a traditional fire without smoke or embers. Available in different styles, sizes and finishes, you'll be able to find a model that works with the look and layout of your home—some units can even be operated with a remote control.

Find eligibility details and locate contractors at www.energytrust.org/fireplaces or call 1.866.368.7878.

HEATING TIPS

If you're not ready to complete a large upgrade, there are many easy ways to improve comfort and reduce your heating costs during the colder months:

- Add weather stripping to drafty doors and windows
- Clean and replace filters regularly to help your furnace operate efficiently
- Cover bare floors with rugs to add comfort and help retain heat
