New Home Rebates*

**ENERGY STAR® Certified Home:
\$2,000**

**Built Green® Certified Home:
\$2,000**

Welcome . . . to your efficient home!

The mission behind Built Green® and ENERGY STAR® is to design efficient homes that go beyond the current Washington state building codes. Both programs provide environmentally conscious households built with best practices from the very beginning stages in construction.

Cascade also offers a variety of space and water heating incentives for energy efficient upgrades to existing homes. Visit our website to learn about available residential and business rebates for using energy wisely.
