# DISCOVER ENERGY TRUST'S ONLINE HOME ENERGY REVIEW

With Energy Trust's easy-to-use online Home Energy Review tool, receive an estimated calculation of your home's current energy use and custom recommendations for energy-saving improvements in 10 minutes or less.

Create a customized action plan and start energy-efficient projects on a timeline that works for you.

**To get your review, visit [www.energytrust.org/start](http://www.energytrust.org/start) or call 1-866-368-7878.**

## TURN ON THE SAVINGS

The average home could save up to 1,500 gallons of water a year—and reduce water heating costs—just by switching to new, efficient showerheads. Look for the Energy Trust logo at local retailers and receive an instant discount on qualifying purchases.

Find participating retailers and qualifying models at [www.energytrust.org/showerheads](http://www.energytrust.org/showerheads).
