# Let's talk **rebates**

Before upgrading, confirm with a contractor the furnace has a 95% AFUE or higher for a **\$400 incentive**.

In fact, while you're at it, seal your duct system along with your furnace and earn an additional **\$150 rebate** from Cascade. Sealing ductwork can improve indoor air quality and reduce energy bills, a win-win. Additional restrictions apply contact us for more information.

## **Not sure where to start?**

Our Trade Ally contractors have got you covered. Visit our website for a list of approved contractors, complete the work, and submit a copy of your invoice with an application at: [cngc.com/energy-efficiency](https://cngc.com/energy-efficiency)
