

RELIABLE HOT WATER WHEN YOU NEED IT MOST

Reliable water heating is an important way to make sure you and your family stay cozy this winter. If your water heater is over ten years old, leaking water, making strange noises or just not heating as well as it used to, it may be time for a new high-efficiency gas water heater. Cascade Natural Gas customers are eligible for instant discounts from Energy Trust of Oregon on qualifying models.

UPGRADE NOW WITH INSTANT DISCOUNTS

Between the bath, kitchen and laundry room, hot water is always in demand, typically consuming 20% of the average home's energy bill. Upgrading to an energy-efficient water heater can reduce monthly energy expenses and help lower hot water costs. Qualifying high-efficiency gas tank water heaters are eligible for a \$150 instant discount at local retailers.

Find a qualifying model at www.energytrust.org/hotwater.

DIY TIPS FOR WATER HEATER ENERGY SAVINGS

Try these low- to no-cost ways to save on your hot water bill this winter:

- Insulate your water heater tank so it doesn't need to work as hard to keep water warm.
- Insulate your hot water pipes to prevent heat loss during water transport.
