

In the Community to Serve®

Choices you make today, are the building blocks of tomorrow

In fact, you can *build* value in your home through energy efficiency upgrades to improve its quality and comfort.

Remember, you aren't alone in the upgrade process.

to see what incentives we offer.

Rebate Q & A:

Maybe you've heard of the rebate program, but don't understand how it works. Below are commonly asked questions and answers to make applying swift and painless.

Q: Will Cascade complete my install?

A: Cascade does not install upgrades. For equipment like furnaces or tankless water heaters, contact any Washington state licensed contractor. Rebates for insulation require a Cascade Trade Ally contractor.

Q: How do I find a Cascade Trade Ally Contractor?

A: Cascade offers an online directory, allowing customers to input their zip code and contractor type (water heat, space heat, insulation, etc.). If you don't have internet access, call 866-626-4479.

Q: I've completed my install, what's next?

A: Complete and submit your application with the invoice. Applications can be found online at: www.cngc.com/energy-efficiency. If you need a mailed application, call 866-626-4479.
