

BEING IN “HOT WATER” IS GOOD FOR BUSINESS

Commercial tankless water heaters provide hot water only when needed, eliminate waste and environmental impact, and cut down on greenhouse emissions.

Rebates are available for energy-efficient gas upgrades at commercial and industrial businesses.

Domestic Hot Water Tankless Water Heater

.87 UEF/Thermal Efficiency - \$120/gpm

93 UEF/Thermal Efficiency - \$150/gpm

Ex: 0.93 UEF 6 GPM x \$150/ kBtuh = \$900

Tankless water heaters come with increased energy savings, increased comfort and most importantly, consistent and reliable hot water. What CNGC customers are saying:

"The scheduled maintenance is easier and less intrusive than having to drain a larger hot water storage."

- Yakima Home2 Suites by Hilton, Chief Engineer, Anthony Jenkins

"We have 149 guest rooms and the biggest benefit is that we haven't had any hot water supply issues."

- Hanford House, Gurbir Sandhu Managing Member
