

# Notice to the Public | Oregon Service Area

Cascade Natural Gas Corporation filed for approval from the Oregon Public Utility Commission (“OPUC”) to implement Schedule 37, Energy Discount Program (“EDP”) Cost Recovery, on July 20, 2022, and September 26, 2022, which results in an overall effective rate adjustment on the average residential customer’s monthly bill of a flat \$0.81 charge, or a 1.6% increase.

The EDP recovery rate is designed to recover direct costs associated with the Company’s EDP to qualifying residential customers in highly impacted communities throughout Oregon. This new program fulfills an OPUC requirement and is a straight pass-through of costs, meaning Cascade Natural Gas does not earn a profit on this portion of a customer’s bill.
