

NOTICE OF PROPOSED RATE INCREASE

Cascade Natural Gas Corporation proposes an overall average 22.8 percent increase in natural gas rates.

In September 2022, Cascade Natural Gas Corporation (Cascade) will file the following requests with the Washington Utilities and Transportation Commission (WUTC) proposing an overall average 22.8 percent increase for all customer groups with natural gas service. The changes are proposed to become effective November 1, 2022:

- **Purchased Gas Adjustment (PGA):** Cascade requested an increase to rates to recover the cost of natural gas. Gas costs are a straight pass through of costs, where Cascade does not earn a profit on these costs. For gas costs alone, the average residential customer using 54 therms per month will see a bill increase of \$13.54 per month or 22.19 percent more. The proposed rate increase is primarily due to an increase in wholesale natural gas costs above the level presently included in rates.
- **Cost Recovery Mechanism for Pipeline Replacement (CRM):** Cascade asked for an overall average increase to rates of 0.83 percent to recover costs incurred for the replacement of aging natural gas pipes from November 1, 2021, through October 31, 2022. The CRM helps Cascade continue to provide customers with safe and reliable gas service. The typical residential customer using 54 therms per month will see a bill increase of \$0.54 cents per month or 0.89 percent more for the CRM costs alone.
- **Decoupling Mechanism Adjustment:** Decoupling refers to the disassociation of a utility profits from total gas sales, so utilities do not have an incentive to try to sell more energy. Cascade requested to charge customers the difference between authorized revenue and actual billed revenue consistent with Cascade’s Rule 21, Decoupling Mechanism, and Commission Order 04 in Docket UG-152286. The proposed rate increase is primarily due to an increase in installation of conservation measures, weather variations, and different gas usage patterns. For the decoupling mechanism adjustment, the average residential customer using 54 therms per month will see a bill increase of \$0.45 per month or 0.73 percent more.
- **Conservation:** Cascade works with its customers to implement energy efficiency programs, which reduce energy use and saves gas at less than half the cost of new supply. These programs offer financial incentives that can help reduce the cost of energy for customers. Cascade requested an increase to rates to collect actual conservation costs from the previous twelve-month period. The purpose of the conservation adjustment is to pass on changes in the amount of conservation program expenditures compared to what has been collected from customers. An average residential customer using 54 therms per month will see a bill increase of \$0.01 per month or 0.02 percent more.
- **Unprotected Excess Deferred Income Tax:** This relates to the Tax Cut and Jobs Act that reduced the federal income tax rate effective January 1, 2018. The average residential customer using 54 therms per month will see a bill decrease of \$0.02 cents per month or 0.03 percent less.

The WUTC will review each of these filings and has the authority to set final rates that may vary from Cascade’s requests, either higher or lower, depending on the results of its investigation. If the WUTC approves all proposals, the total increase for a typical residential customer using 54 therms per month will be \$14.52 more per month or 23.81 percent, bringing the total average monthly Cascade bill to \$75.52 from \$61.00. The combined proposed rate changes for residential, commercial, and industrial customers are:

Type of Service	Current Rate**	Current Average Bill*	Proposed Rate**	Proposed Average Bill*	Percent Change in Bill
Residential, Schedule 503	\$1.03712	\$61.00	\$1.30606	\$75.52	23.81%
Commercial, Schedule 504	\$0.97066	\$276.05	\$1.26147	\$354.86	28.55%
Industrial Firm, Schedule 505	\$0.89552	\$1,784.08	\$1.16029	\$2,311.50	29.56%
Com-Ind Dual Service, Schedule 511	\$0.78754	\$11,356.56	\$1.06687	\$16,004.33	40.93%
Industrial Interruptible, Schedule 570	\$0.75482	\$17,699.73	\$1.00060	\$23,409.94	32.26%
Transport, Schedule 663	\$0.06583	\$12,011.17	\$0.06661	\$12,234.16	1.86%

* The average bill includes the monthly basic charge which has not changed with this filing.

** Due to tiered rate structures based on individual customer consumption, Rate Schedules 505, 511, 570, and 663 reflect average rates.
