

SAVING ENERGY IN STYLE

A gas fireplace can add warmth and character to any room while helping save on heating bills.

As a customer of Cascade Natural Gas, you could save up to \$250 on a gas fireplace with incentives from Energy Trust of Oregon.

In the Community to Serve®

TURN UP THE SAVINGS

A high-efficiency direct-vent gas fireplace uses air from outside to feed the flame, and exhausts combustion gases through a wall-mounted vent—keeping those gases out of your home. Better yet, 70% of the heat that a direct-vent gas fireplace generates remains in your home. This means that you can turn down your thermostat and use your gas fireplace as the heat source for your most used space, lowering your utility bills.

Find eligibility details and local contractors at www.energytrust.org/fireplace or call 1-866-368-7878.

**Incentives are subject to funding availability and may change.*
