

Looking to replace outdated equipment at your facility and reduce energy costs?

Cascade Natural Gas (CNGC) has rebates available to make your commercial or industrial facility more energy-efficient. CNGC's rebates reduce your costs to install more efficient heating, food service, weatherization, and hot water equipment.

Space Heating

Save on monthly space heating costs with highly efficient furnaces, radiant heating, boilers and more.

Food Service

Upgrade your commercial kitchen with energy-efficient gas ovens and griddles.

Weatherization

Reduce energy loss by upgrading to more efficient windows and floor, attic, roof, wall, and pipe insulation.

Hot Water Equipment

Use less energy to heat water by installing on demand energy-efficient water heaters, hot water tanks, and more.

Ready to get started?

Our energy experts can help you identify opportunities to save energy and use CNGC rebates to offset upgrade costs. Call **866-450-0005** or visit **www.cngc.com/energy-efficiency** for more information.
