

Cascade Natural Gas WA Commercial and Industrial Incentives

Rebates effective on installs on or after March 15, 2024

Heating	<p>Warm Air Furnaces - \$6.00/kBtu/hr High Efficiency Condensing Furnace—Min 91% AFUE Ex: 120 kBtuh x \$6/ kBtuh = \$720</p>	<p>Boiler Steam Trap - \$125 Min 300 kBtu in; steam pressure at 25 psig or > Retrofit Only</p>
	<p>HVAC Unit Heater - \$5.00/kBtu/hr High Efficiency Condensing—Min 91% AFUE Ex: 180 kBtuh x \$5/ kBtuh = \$900</p>	<p>Demand Control Ventilation - \$50/nominal ton 5 tons ≤ Unit Cooling Capacity ≤ 20 tons Pre-Approval Required</p>
	<p>Radiant Heating - \$15.00/kBtu/hr Direct fired radiant heating Ex: 180 kBtuh x \$15/ kBtuh = \$2,700</p>	<p>High-Efficiency Condensing Boiler - \$10.25/kBtu/hr Min 94% Thermal Eff & 300 kBtu input Ex: 1600 kBtuh x \$10.25/ kBtuh = \$16,400</p>
	<p>Install any piece of HVAC equipment and receive a \$100 incentive bonus. Applies to warm air furnaces, HVAC unit heaters, radiant heaters, and both condensing and mid-efficiency boilers</p>	
Food service Equipment	<p>Gas Griddle - \$600 ENERGY STAR® ≥38% Cooking Eff/ ≤2,650 Btu/hr sq ft Idle Rate</p>	<p>Gas Convection Oven - \$800 ENERGY STAR® ≥44% Cooking Eff/ ≤13,000 Btu/hr Idle Rate</p>
	<p>Double Rack Oven - \$2,700 FSTC Qualified ≥50% Cooking Eff/ ≤3,500 Btu/hr/Idle Rate D Rack</p>	<p>Gas Conveyor Oven - \$700 ≥42% tested baking efficiency</p>
Weatherization	<p>Windows - (retrofit only) Pre-Existing must be single pane; Post must be ENERGY STAR® Northern Zone U-Factor ≤ 0.30 - \$7.50/sq ft U-Factor ≤ 0.22 - \$9.00/sq ft</p>	<p>Attic Insulation - (retrofit only) Min R-30 - \$2.00/sq ft Min R-45 - \$2.50/sq ft</p>
	<p>Floor Insulation - (retrofit only) Min R-30 - \$1.25/sq ft</p>	<p>Hot Fluid Pipe Insulation - (retrofit only) >140F, <200F, 1.5" insulation - \$15.00 per linear foot, ≥ 200F, 2.5" insulation- \$25.00 per linear foot</p>
	<p>Roof Insulation - (retrofit only) Min R-30 - \$2.00/sq ft</p>	<p>Wall Insulation - (retrofit only) Min R-19 - \$2.00/sq ft</p>
Water	<p>Energy Savings Kits - FREE Kitchen Pre-Rinse Spray Valve</p>	<p>Domestic Hot Water Tanks - \$3.00/kBtu/hr Condensing tank, Min 91% Thermal Eff Ex: 199 kBtuh x \$3.00/ kBtuh = \$597</p>
	<p>Domestic Hot Water Tankless Water Heater .87 UEF/Thermal Efficiency - \$120/gpm .93 UEF/Thermal Efficiency - \$150/gpm Ex: 0.93 UEF 6 GPM x \$150/gpm = \$900</p>	<p>Ozone Injection Laundry - \$9,000 Venturi injection or bubble diffusion - Min 125 lb. total washer/extractor capacity. Pre-approval required.</p>
	<p>DHW Recirculation Controls - \$200 Continuous Operation DHW Pump. Retrofit Only. Pre-approval required.</p>	

View page 2 to review all terms and conditions, including equipment specific requirements.

Bundle and save in addition to your standard incentive!

Install radiant heating and upgrade insulation for a 10% increase.

Two insulation measures, min. 1000 sqft +\$500
Two Kitchen Equipment +\$300, Three Kitchen Equipment +\$500

If you are planning equipment or building upgrades that do not fit within the standard incentives, but significantly reduce natural gas consumption, please call 866.450.0005 to learn about custom project opportunities.

General Qualifications

- New or existing commercial or industrial customer of Cascade Natural Gas Corporation on one of the following rate schedules: 504, 505, 511, 570
- High efficiency equipment, i.e. heating, water heating & cooking equipment installed as a replacement, retrofit or new, in place of standard efficiency
- Custom incentives are available, contact program representative if the equipment being installed is not on the prescriptive incentive list attached
- Each piece of equipment may only receive one incentive
- Applications must be submitted within 90 days of installation date. Please contact the program if your project does not meet this requirement
- Incentives may be subject to change and are only applicable for measures approved within the Biennial Conservation Plan at the time of installation
- Installation must comply with all federal, state and local code requirements
- Call 866-450-0005 or visit www.cngc.com/energy-efficiency/commercial or email conserve@cngc.com to review qualifications and eligibility

Equipment Specific Requirements

- Regular steam trap maintenance and replacement every seven (7) years is required, retrofit only
- Tankless water heater applications must include the serial number
- For existing packaged HVAC with gas fired furnace and direct expansion cooling sections DCV; controller must meet joint utility advanced rooftop control guidelines
- Incentive eligibility is contingent upon use of natural gas-fired domestic water serving the specific measure equipment or fixture
- Insulation projects in spaces with existing, functional insulation do not qualify. Functional insulation is considered any existing insulation less than 30 years old. The building/space insulated must be heated with natural gas provided by CNGC. Roof insulation is defined as insulation that is installed on top of the roof deck. Minimum value of Post R-19 applies only where existing walls have an internal insulation cavity. If existing insulation is damaged to the point of ineffectiveness or applied in spotty coverage, the insulation must be removed and the condition that led to the ineffectiveness/damage must be corrected before the rebate will be considered. Insulation R value must meet specifications of current CNGC tariff
- To be considered for incentive funding, the output capacity of heating equipment applied for should generally not exceed winter design day requirements by more than 25%. Where multiple parallel units are proposed, heating capacities greater than or equal to 100% redundancy will not be incentivized

How to qualify for CNGC incentives

1. **Establish eligibility:**
Call 1.866.450.0005 or visit www.cngc.com/energy-efficiency for program requirements.
2. **Install energy-efficient upgrades:**
Contact a licensed contractor or one of our Trade Allies to install eligible measures.
3. **Submit application:**
Available online at www.cngc.com/energy-efficiency. Sign and enclose:
 - Application
 - Invoice showing total cost, model number and R Values for insulation measures
 - CNGC bill

Mail forms to:

Cascade Natural Gas Corporation,
c/o TRC
111 SW Columbia Street, Suite 945
Portland, OR 97201

Upon receipt of completed application, please allow six to eight weeks for processing and payment.
