

Rebates effective for installs on or after March 15th, 2024.
Check www.cngc.com/energy-efficiency for most up-to-date information.

New and Existing Home Measures	Basic Specifications	Incentive
Furnace ¹	98% AFUE minimum or higher 95% AFUE minimum or higher	\$1,200 \$800
Hearth (Fireplace) ²	70% EnerGuide FE (Fireplace Efficiency)	\$300
Condensing Boiler ¹ (space heating only)	95% AFUE minimum or higher	\$1,500
Combination Radiant Heat System ^{1&3}	95% AFUE minimum or higher	\$1,500
Condensing Tankless Water Heater ³	0.91 UEF minimum or higher	\$700
ENERGY STAR® Clothes Washer ³	Model must be chosen from the ENERGY STAR certified Clothes Washer list: https://www.energystar.gov/products/clothes_washers	\$50
Exterior Entry (not sliding) Door ¹	U-Factor must be less than or equal to 0.21 National Fenestration Rating Council (NFRC) sticker required	\$100
Smart Thermostat ¹	Must be connected to home WiFi	\$75

Existing Home Measures	Basic Specifications	Incentive
Programmable Thermostat ¹	7 day (flexibility)/5+2 (workweek/weekend)/5+1+1 day models	\$50
Windows ¹ Must replace existing single pane windows	U-Factor must be less than or equal to 0.22 U-Factor must be less than or equal to 0.30	\$9.00/sqft \$5.00/sqft
Attic Insulation ^{1&4}	Insulation must be equal to or greater than R-60, or cavity filled to R-49 Prior attic insulation must not exceed R-19	\$2.00/sqft
Floor Insulation ^{1&4}	Insulation must be equal to or greater than R-30, or cavity filled to R-19 Prior floor insulation must not exceed R-11	\$2.00/sqft
Wall/Sloped Ceiling Insulation ^{1&4}	Insulation must be equal to or greater than R-11, or cavity filled Prior wall insulation must not exceed R-4	\$2.00/sqft
Duct Insulation ^{1&6}	Insulation must be equal to or greater than R-8 and must be reported in linear feet Prior duct insulation must not exceed R-0	\$2.00/lnft
Duct Sealing ¹	Requires a minimum of 30% of applicable ductwork is outside of conditioned space	\$500
Prescriptive Air Sealing ^{1&4}	Only eligible with Attic Insulation installation. Must meet BPA specifica- tions for attic and crawl space sealing. Attic insulation must be present.	\$150
Whole House Air Sealing ^{1, 4, & 5}	Minimum 400 CFM50 reduction using pre/post blower door testing	\$500
Existing Home Bundle A ^{5&6}	Any two unique insulation measures performed at the same time with a minimum 1,000sqft total	\$250
Existing Home Bundle B ^{5&6}	Same requirements as Bundle A plus Whole Home Air Sealing	\$1,000

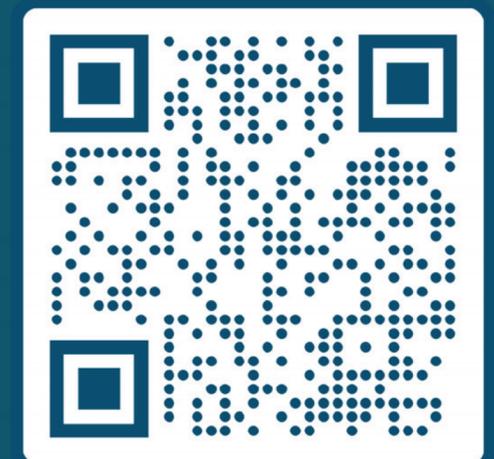

WA Energy Efficiency Program

New & Existing Homes Incentives

Measure Caveats

1. Home must be heated by natural gas and a Variable Refrigerant Flow (VRF) or multi-zone ductless electric heat pump cannot be present.
2. Must use intermittent ignition device. Ventless fireplaces are not eligible. EnerGuide database: https://oee.nrcan.gc.ca/pml-lmp/index.cfm?action=app.search-recherche&appliance=FIREPLACE_G
3. Water-heating fuel must be provided by CNGC for all water-heating incentives. Combined use of indirect, non-fired tank is acceptable for use with approved 95% AFUE Boiler where required.
4. Insulation and all air sealing measures must be performed by a CNGC qualified Trade Ally. Visit www.cngc.com/energy-efficiency for a list of qualified CNGC Trade Ally contractors in your area.
5. Requires WA Department of Commerce Combustion Safety Test Report Exhibits 9.4A and 5.S3A. https://www.cngc.com/wp-content/uploads/PDFs/Conservation/Combustion-Safety_Blower-Door_Diagnostic-Test-Report.pdf. Leakage reduction required to be verified and documented through pre and post blower door testing.
6. Ducts must be sealed prior to duct insulation being installed to qualify. HVAC contractors may install Duct Insulation and Duct Sealing.

Eligibility Requirements

- Applications must be received within 90 days of install date.
- Applications must be a Washington State CNGC customer on residential rate schedule 503 (check your CNGC bill).
- Homes must be heated by natural gas to be eligible for space heating and weatherization rebate
- All measures must be installed by a Washington State licenses contractor in good standing, excluding doors, thermostats, and clothes washers. These measures may be self-installed with support documentation including: copies of purchase receipts and photos of equipment sticker, or screenshot of equipment information in the smart thermostat app displaying brand, model number, and serial number.
- Ducts must be sealed prior to duct insulation being installed to qualify.

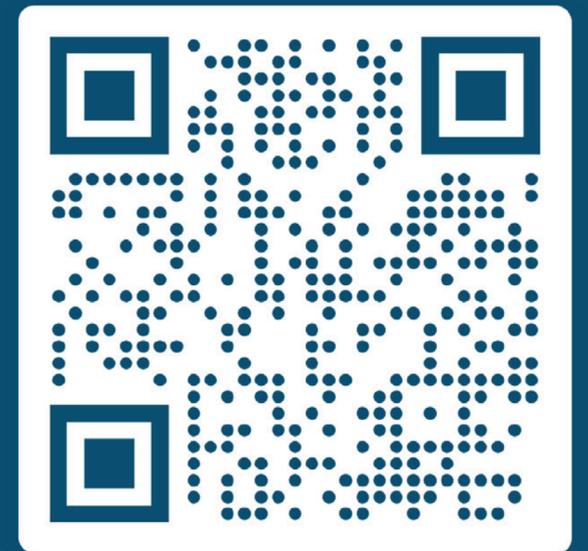

How to Qualify for Incentives

- Establish your eligibility by visiting www.cngc.com/energy-efficiency or calling 866.626.4479
- Install energy-efficient home improvements. Contact a CNGC Trade Ally or WA licensed contractor to install eligible measure. Visit the following link for a list of CNGC Trade Ally contractors. <https://cngcconnect.my.site.com/tradeally/s/search?sector=Residential>. If installing insulation or air sealing, you must use a CNGC Trade Ally.
- Submit your application. Apply online at www.cngc.com/energy-efficiency. Paper applications may be sent with a copy of your invoice to:
