High-efficiency furnace incentives

Simple maintenance can keep your customers cozy this fall while also lowering energy costs. Promote tune-ups on natural gas heating systems and be sure to remind customers to check their air filters at least once per month.

If your customer's current natural gas heating system isn't keeping their home comfortable, offer a no obligation evaluation. If an upgrade is required, give your customers the option of reducing their energy costs with a high-efficiency natural gas furnace. Cascade Natural Gas can help offset the cost with cash incentives of up to $150 on qualified natural gas furnaces. Saving energy and helping the environment — now that's smart business
