

Appendix I

Distribution System Planning

2023 OR IRP

Appendix I - Introduction

The purpose of this document is to show the Company's 5-year budget for the engineering projects as well as details regarding each project. These projects were identified by the engineers through the Distribution System Planning Process Flow that can be seen on Page 8-11 of the IRP. These projects are areas that the Company is forecasting growth to a point where there may be capacity issues, therefore, budgeting to improve capacity needs.
