Service under this Schedule may be available to Biomethane Producers who meet all of the following conditions:

1) The Producer will transport biomethane on the Company's distribution system;
2) The Biomethane Producer must meet the credit screening criteria as established for nonresidential customers in Rule 3; (T)

5) The Company has determined that Company's distribution system has the capacity to accept the biomethane and/or Project Facilities capable of enabling the acceptance of the biomethane can be designed, constructed, and operated in accordance with all applicable local, state, and federal requirements; and
6) Prior to the Company's building an interconnection, the Biomethane Producer must demonstrate to the Company's satisfaction that it has secured end user(s) either on the Company's system or outside of the Company's system who agree to purchase or move off the system all the estimated biomethane production. If the end user is outside of the Company's system, the Biomethane Producer must demonstrate to the Company that it has secured the appropriate transmission rights to move the biomethane off the Company's system.
