RE: NEW, Cascade Advice No. W25-06-01, Housekeeping

Director Killip

Cascade Natural Gas Corporation ("Cascade") herewith submits to the Washington Utilities and Transportation Commission ("Commission") the following revisions to its Tariff WN U-3, stated to become effective with service on and after July 25, 2024:

Thirtieth Revision of Sheet No. 2-A
Second Revision of Sheet No. 556
Second Revision of Sheet No. 700.1

Cascade makes the following changes in this housekeeping filing:

- Sheet No. 2-A. The Table of Contents is revised to add reference to Schedule 520, Provisional Plant Rate Adjustment, which was approved in Docket UG-250307. Cascade was not able to update the Table of Contents in Docket UG-250307 because the sheet was suspended in Cascade's prior housekeeping filing, docketed as UG-250187.
- Sheet 556. The COVID-19 Cost Recovery Adjustment was approved in Cascade's most recent multi-year rate case (UG-240008). While the adjustment was initially designed to collect COVID-19 costs over two years, the final settlement agreement, approved as Appendix A to Commission Order No. 05, issued in UG-240008, agreed this schedule would have a three-year term. Schedule 556, as submitted in Cascade's final compliance filing, inadvertently retained the initially proposed term ending February 28, 2027. Cascade corrects the term in this filing so that it ends February 28, 2028, clarifying that this schedule has a three-year term rather than a two-year term

- Sheet No. 700.1. The definition of low-income residential customer includes the extra word, “customers,” which is removed with this filing.

This electronic filing is comprised of the following files:

- NEW-CNGC-Advice-No.-W25-06-01-Housekeeping-CLtr-06-09-2025.pdf
- NEW-CNGC-Advice-No.-W25-06-01-Housekeeping-Trf-06-09-2025.pdf

Please direct any questions regarding this filing to me at (208) 377-6015 or Jennifer Gross at (509)-975-9473.

Sincerely,

/s/ Lori Blattner
