RE: Docket ADV 1906, AR 671 Housekeeping

Cascade Natural Gas Corporation (Cascade) filed Advice No. O26-09-01 docketed as ADV 1906 on September 30, 2026. Cascade now files the following **replacement** tariff sheet:

First Revision of Sheet No. 5.2

All other tariff sheets remain as initially filed. Cascade respectfully requests that the effective date for this filing be revised from November 11, 2026, to **December 9, 2026**, to allow the required thirty-days' notice on this replacement tariff sheet.

Cascade is filing this replacement sheet to align the Disconnection Moratorium provisions on Sheet No. 5.2 with the rules adopted by the Commission in Order No. 25-543 in Docket AR 671. Based on feedback provided from Citizens' Utility Board (CUB), Cascade revises the definition of an Off-Season Cold Weather Event to a forecasted or occurring low temperature of 32° Fahrenheit or below *and a high temperature of 60° Fahrenheit or below*, or a winter storm warning. This revision ensures that Off-Season Cold Weather Event in Rule 5 aligns with the definition of severe off-season cold event in OAR 860-021-0008(13). Additionally, based on feedback provided from the Oregon Public Utility Commission, Cascade revises the definition of a Wildfire Event to include the Oregon Department of Emergency Management, consistent with OAR 860-021-0406(1).

Please direct any questions regarding this filing to Arabella Aragon Blomstedt at 701-970-9743.

Sincerely,

/s/ Michael Parvinen

RULE 5
DISCONTINUATION OF SERVICE

DISCONNECTION MORATORIUMS (continued) (N)

b. An Off-Season Cold Weather Event is when a low temperature of 32° Fahrenheit or below and a high temperature of 60 Fahrenheit or below are forecast or are occurring, or a winter storm warning is issued during the timeframe of May 1 through October 31. The Disconnection Moratorium is applicable to Residential customers and begins when the event is forecast to occur and lasts through the Off-Season Cold Weather Event plus 48 hours after the event ends.
c. An On-Season Cold Weather Event is when a temperature of 32° Fahrenheit or below is forecast or is occurring, or a winter storm warning is issued during the timeframe of November 1 through April 30. The Disconnection Moratorium is applicable to Residential customers and begins 24 hours before the On-Season Cold Weather Event starts and ends 48 hours after the cold weather ends.
d. A Wildfire Event occurs when a Level 2 or Level 3 wildfire evacuation notice or order is issued by the Oregon Department of Emergency Management. The Disconnection Moratorium begins when the Wildfire Event starts and ends 48 hours after it is lifted for affected Residential customers and 24 hours after it is lifted for affected Commercial customers.

The Company will make its best effort to reconnect service for the following customers who request reconnection and meet the following criteria:

a. Residential customers who had been disconnected for nonpayment within the previous seven days of a Disconnection Moratorium. Income-Qualified Residential Customers and customers with a medical certificate will not be required to pay an outstanding balance as a prerequisite to reconnection required pursuant to a Disconnection Moratorium.
b. Small commercial customers that were disconnected for nonpayment within the previous 72 hours of an Air Quality Event or that were disconnected for nonpayment within the previous seven days before a Wildfire Event and that make the request for reconnection within seven days of the Wildfire Event. (N)

(K)

EMERGENCY DISCONNECTION

In emergencies endangering life or property, a utility may terminate service without following the procedures set forth in this rule. However, Cascade shall immediately thereafter notify the Commission. In such cases, where the necessity for emergency termination was through no fault of the customer, there will be no charge made for restoration of service.

DISCONNECTION OF SERVICE ON WEEKENDS AND HOLIDAYS

Gas service shall not be disconnected for nonpayment on or the day prior to a weekend or a state or utility-recognized holiday.
