NOTIFICATION OF DISCONNECTION OF SERVICE FOR NONPAYMENT

Except as otherwise allowed per WAC 480-90-128(1) and (2), the Company will provide the customer with no less than two notices prior to involuntary disconnection for nonpayment. The first will be a mailed written notice with a stated disconnection date that is no less than eight business days after the date of mailing. The second notice will be mailed no less than five calendar days prior to the disconnection date.

(N)

Advance notice of disconnection is not required when disconnection is for meter tampering, diverting service, other theft of service, or for hazardous or unsafe conditions.

When a customer makes a payment subsequent to the issuance of a notice to disconnect service due to nonpayment, whether payment is made to prevent a disconnection of service or to reactivate service that was disconnected, and the payment is not honored by the bank or other financial institution, the account will be deemed unpaid. The Company will attempt to notify the customer in person, by telephone, or by written notice of the payment failure and the Customer will have one business day to correct the failure. If a valid payment is not received, service to the customer may be disconnected after the due date of the previously issued five-day notice and without further written notice. This process may proceed separately from the normal notice process described herein.

MEDICAL CERTIFICATE

A customer may notify the Company of a medical emergency and receive five days grace on a disconnection for nonpayment. If the gas service was disconnected for nonpayment before the notice was given to the Company, the Company will restore service on the same day, unless notification occurs after hours at which point reconnection will occur before 12:00 p.m. the next business day. Service will remain on for five days during which time the customer is expected to provide the Company with a certificate signed by a qualified medical professional and enter into a time payment agreement. The certificate must be in writing and indicate the resident’s location, an explanation of how the medical condition would be aggravated by disconnection, the length of time the condition is expected to last, and the signature, printed name, title, and phone number of the qualified medical professional. A medical certificate does not excuse a customer from paying delinquent or ongoing charges. A medical certificate is valid no longer than 60 days and a customer is entitled to the benefits of a medical certificate no more than twice in a 120-day period.
